GO FOR A WALK
The Honeysuckle Creek Walking Track is a 3km loop track through parklands and creek bushland, located in the heart of Violet Town. There are two bridge crossings near the centre of this stretch of the Honeysuckle Creek, giving various options for shorter loops.

A COMPLETE EXPERIENCE
The Walking Track is suitable for gentle strolling, families, jogging, walking the dog, birdwatching, and cyclists.

STAY FOR A WHILE
There are a number of seats and picnic tables located along the track. Take the opportunity to have a picnic, or just sit and take in the ambience.

BE INFORMED
Violet Town was the first surveyed inland town in Victoria. Major Thomas Mitchell camped on the creek in 1836. The Honeysuckle Creek and surrounding area retains many large, mature eucalypts that provide habitat for the endangered Squirrel Glider. The creekside and adjacent vegetation is habitat for many native birds, including the endangered Grey-crowned Babbler. Signs along the track provide some cultural and natural history information.

A COMMUNITY PROJECT
The Honeysuckle Creek Walking Track and associated features – seats, tables, information signs, and landscaping – is a Violet Town community initiative.

The Honeysuckle Recreational Environment Project began in 2002, and since then has had an active volunteer group taking on the management, preservation, and development of this Reserve area.

Volunteers are planting thousands of native trees, shrubs and grasses in the Reserve. The local primary school and community members are involved in environmental educational activities. An identification brochure for birds that occur along the creek is available locally.
