

# Violet Town's Flood Map

This flood map shows possible flooding in Violet Town based on a flood measuring 4.18 m high at the Baird St Gauge on Honeysuckle Creek.

The floodwater shown in light blue that is spread over parts of the town, is very similar to the areas affected in the 1993 flood.

This flood map and more information about flooding in Violet Town can be found in the updated **Violet Town Local Flood Guide** currently being developed.

SES and the Violet Town Action Group invite your feedback, or to share your flood photos or stories!

Community events and activities are planned to distribute the guide across the community.

For more information or if you'd like to be involved contact:  
email: [northeast@ses.vic.gov.au](mailto:northeast@ses.vic.gov.au)  
or phone **9256 9650**.
